

ECC COVID-19 TRAVEL PROTOCOLS

Help Prevent the Spread

The Club will follow CDC, local, state, and Federal guidance.

Domestic Travel within the US for Members and Guests -

People who are fully vaccinated with an FDA-authorized vaccine or a vaccine authorized for emergency use by the World Health Organization can travel safely within the United States.

International Travel for Members and Guests -

If you are not fully vaccinated and must travel, take the following steps to protect yourself and others from COVID-19:

- **Before you travel**
 - Get tested with a viral test 1-3 days before your trip.
- **While you are traveling**
 - Wearing a mask over your nose and mouth is required on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and while indoors at U.S. transportation hubs such as airports and stations. Travelers are not required to wear a mask in outdoor areas of a conveyance (like on a ferry or the top deck of a bus). CDC recommends that travelers who are not fully vaccinated continue to wear a mask and maintain physical distance when traveling.
 - Avoid crowds and stay at least 6 feet/2 meters (about 2 arm lengths) from anyone who is not traveling with you.
 - Wash your hands often or use hand sanitizer (with at least 60% alcohol).
- **After you travel**
 - Get tested with a viral test 3-5 days after travel AND stay home and self-quarantine for a full 7 days after travel.
 - Even if you test negative, stay home and self-quarantine for the full 7 days.
 - If your test is positive, isolate yourself to protect others from getting infected.
 - If you don't get tested, stay home and self-quarantine for 10 days after travel.
 - Avoid being around people who are at increased risk for severe illness for 14 days, whether you get tested or not.
 - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
 -
